

CRESCENT PUBLIC SCHOOL

PROSPECTUS

Success is Sweet but Its Secret is Sweat

Director's Desk

I am grateful for the opportunity to serve as The Director of **CRESCENT PUBLIC SCHOOL**, a school that continually sets the highest standards and strives to achieve excellence, a school that produces distinguished individuals and leaders in a variety of fields.

In real means, children are the future of a nation, and the nation is built by healthy education. We teach our children not to “Go” through life but “Grow” through life. I strongly believe that the overall development of a child is a must i.e. in all five domains - physical, mental, emotional, social and moral.

Moreover, we foster a positive spirit and believe in a partnership between students, parents, teachers, and support staff who strive to create a milieu that sustains excellence. Our distinction lies in the pursuit of high academic attainment through support, encouragement, praise and motivation.

Open-mindedness, a multicultural orientation, independence, a global outlook, multiple intelligences, and abilities - these are the premium qualities needed today resulting in Competency-based Education.

The legacy of Crescent

Crescent Public School was founded In 1989 as an education-giving institution to nurture the knowledge of students with dedicated and cooperative teachers. It is managed by '**Gyandeep Shikshan Sansthan**'. Since the beginning of its opening days, it has been giving prodigious results in all domains, helping the students to fulfill their dreams as well as accomplishing the expectations of parents. Crescent Public School has transformed the lamp of optimism leading to attentivity: and hardwork into a to a spotlight by performing at its best resulting to shine brighter day by day. In other words, it has been implementing the theme of "**Shramam Bina Na Kimapi Sadhyam**" in the mindset of new bundles of potentials to enhance and boost up their spirit, talent, diligence, courtesy, confidence, and consistency.

Moreover **Crescent Public School** has stretched its branches in three different parts of the city covering urban as well as rural areas for flourishing the new buds into charming & glaring flowers.

- **Crescent Public School, Chas** ,Jharkhand was established in 1989
- **Crescent Public School, Sector - 6** , Bokaro Steel City, Jharkhand was founded in the year 1998
- **Crescent Public School, Pindrajora** , Bokaro, Jharkhand was inaugurated in the year 2021 on the eve of Basant Panchami

Learn with Fun - Crescent Play School

"In school you are taught a lesson & then given a test. In life, you are given a test that teaches you a lesson." - **Tom Bodett**

Crescent Play School was initialized in the year 2021 in Chas, Bokaro for the children aged between 3-5 years.

We believe that play is a child's work. Through imaginative and creative play, we teach children age-appropriate lessons, manners, and social skills. We think that if children enjoy learning from an early age, they will continue to enjoy studying throughout their lives.

Our preschool teachers work to foster skills like speaking, listening, counting, writing, and following simple instructions. We also teach to recognize letters, numbers, objects based on shapes, sizes, and colour. Moreover, children are taught to write and pronounce their name, also.

We use smart classes to present lessons in a way to help develop each child's imagination by learning through play. The colourful walls of the classroom are designed with charts, drawings, and pictures. The classrooms are equipped with age-appropriate educational toys to help continue inspiring your child's curiosity and desire to learn and engage with their friends and their environment.

Your child's preschool teacher is well-trained, and our classroom creates a nurturing, home-like classroom environment where your toddler is treated as a capable individual.

Learning the Basics - Primary School

*"You off to great places! Today is your day! Your mountain is waiting, so get on your way." - **Dr Seuss***

Students of Std. I to V are prepared individually on reading, writing, science, mathematics, life skills, critical thinking skills, and problem-solving strategies in primary school.

Our trained teachers build a background to understand the concepts and structure of CBSE based curriculum in our school. Our students mature emotionally and physically to grow more independently reaching the perfect adolescence finally.

The coursework not only includes student-teacher interaction but also builds a relationship among peers. Children socialize and learn to convey their message through actions, words, or behavior.

It is also important that we introduce different activities to our children be it Art and Craft, Music, Dance, Sports, Fancy Dress Competition etc. Apart from these, moral and spiritual values are also inculcated at this early age.

Early Adolescence - Middle School

Students of Std. VI to VIII are introduced to cultural as well as modern values. Our teachers focus on building a ladder to get excellent results in the CBSE board examinations.

Our teachers lead a review of concepts learned in the primary school and build these with more in-depth information, preparing students for the school years ahead. Middle school teachers plan and deliver appropriate lessons and grade homework which assess students on their way to progress.

Parent-Teacher meetings are conducted to have a one-to-one discussion with the parents and mark their child's progress.

Olympiads and other brain-storming competitions are on the horizon for the youngsters. Technical expertise and computer abilities are also significant components of our curriculum. Our class room teaching concerning different subjects include real-life examples for easy learning and remembering topics.

Science Exhibitions, Annual Functions, Geeta Chanting Competition, Chess, Taekwondo, Classical and Western Dance and Music are all part of our curriculum and contribute to a child's overall growth.

Knowledge is Power

Secondary & Senior Secondary School

*Knowledge has power. It control access to opportunity and advancement. - **Peter Drucker***

Secondary and Senior Secondary school is from Std IX to XII where a student recognizes that a math problem can be solved in more than one way. Students realize that writing focuses less on summarizing and more on providing thoughts and opinions about what they've read and learned. Teachers of Crescent Public School know that preparation is crucial, So, they spend extra time with struggling students often mentoring and tutoring for Std X and XII Sample papers and practice papers are provided and solved.

CPS offers Science and Commerce for students of Std XI and XII. Apart from the academic preparations, students are trained for their careers ahead. Students are taught to apply knowledge gained from subjects to real-life situations and become independent thinkers.

Organizational skills, excellent communication and presentation skills, and sound decision-making skills are important for prospective high school students. Modern teaching methods are used to deliver lectures in class. Our school is well-equipped with Chemistry, Physics, Biology, Mathematics and Computer laboratories. Our library has numerous books for the preparation of various competitive exams which gives a great opportunity for students to know the patterns and syllabus of exams.

Journey through pages : Library

*“A Library is not a Luxury but one of the necessities of life - **Henry Ward Beecher**”*

The school library plays an important role in the life of young minds by serving as the storehouse of knowledge. It encourages kids to build strong reading habits. Our library has more than 6000 books that help students develop the skills to flourish in a constantly changing technological, social, and economic environment.

Our library has a diverse collection of books by a variety of authors, publishers, and subjects in different languages to enrich students with intellectual, aesthetic, cultural, and emotional growth.

Beyond Boundaries : Smart Classes

“Interact with lessons in real-time using smart boards & educational software”

Smart classroom is technology-enhanced classrooms that foster opportunities for teaching and learning by integrating learning audio and visual. This makes the subject more interesting.

From Field to Victory: Our Sports Legacy

“SPORTS do not build characters, they reveal it”- John Wooden

Sport and exercise can be powerful tools in developing a healthy body and mind. Physical education boost self-esteem in students reduces stress, improves sleep, develops team and leadership skills, and most importantly keeps them fit and healthy.

Our sports instructors train students to have fun and natural competitiveness of the game. The students not only achieve outstanding academic accomplishments but also excel in athletics. Crescent Public School not only opens the door for the students to take part in it but also provides the platform to improve their skills through weekly exercise and sporting events.

Number of Medals in CBSE Inter School Sports & Games Competition

Year	National Level			Zonal Level/Cluster Level		
	Gold	Silver	Bronze	Gold	Silver	Bronze
2017-18	2	2	-	6	7	35
2018-19	4	4	-	7	9	26
2019-20	-	4	4	6	9	21
2022-23	-	1	4	5	9	35
2023-24	-	1	-	7	21	24

Melodies & Motion : Embracing Music & Dance

Crescent Public School gives the opportunity to create whatever a child desires, it helps to foster creativity. A child will learn to make correct and effective decisions by facing and solving artistic challenges.

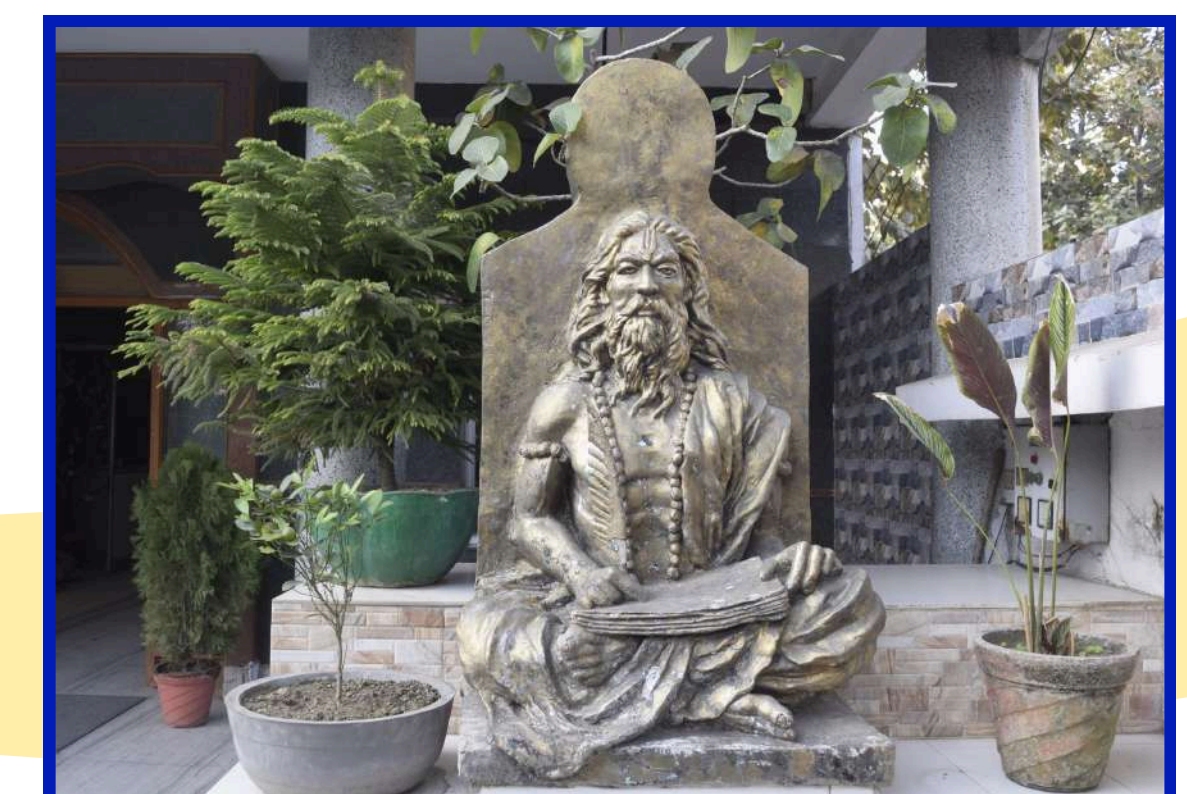

CPS helps students develop confidence, stage presence and the ability to communicate emotions effectively through movement. CPS encourage students to think outside the box, experiment with sounds and express themselves in unique ways.

Students participate in various intra-school, inter-school, inter-state competitions which helps them fight with their stage phobia.

Brushes & Beyond: Exploring Art & Craft

CPS organizes Art & Craft Exhibitions every year to showcase our students' abilities. Children come up with innovative ideas and create the best out of waste, drawing their imagination on paper. It is worth showcasing the colorful, beautiful creativity of our kids.

Innovate, Explore, Discover! Our Labs

*A theory can be proved by experiment, but no path leads from experiment to the birth of a theory.” - **Albert Einstein***

Physics, Chemistry, Biology, and a Computer Laboratory are all well-equipped and giving students the opportunity to question, observe, sample, experience and experiment with scientific phenomena in their pursuit of real-life knowledge.

Science lab equipment allows students to interact directly with the data gathered. They gain first-hand learning experience by conducting their own experiments. Our science lab equipment and supplies make teaching and learning easy both for the teachers, as well as for the students. Our combined classroom teaching amalgamating with laboratory experiments are able to derive the best results for our students. Experiments in these labs aid in developing scientific learning amongst students and in cultivating deeper and profound interest in the field.

Our laboratory equipment teaches students how to articulate a scientific argument in addition to providing hands-on experience. Conducting experiments, reviewing them closely, developing logical reasoning and responding to analytical comments, are some of the valuable skills that help in preparing the next generation of scientists, engineers and medical professionals.

Understanding computers and learning the basics of coding and technology helps children to develop an appreciation of how things work.

Star Shine Bright: Honouring Excellence with Awards

"AWARDS and CEREMONIES are all an Applause of Discipline" - Sunday Adelaja

The school bestows the following awards to the students -

1. Merit Awards are bestowed to the students of Nursery to Std-XI who get 1st, 2nd and 3rd position in their respective classes, academically on the basis of percentage in Annual Performance. The student gets a scholarship of ₹2000, ₹1500 and ₹1200 and a Trophy.
2. Scholar Badges are awarded to the students who score above 90% in Annual Performance.
3. Attendance Awards are rewarded to the students having 100% attendance during the session.
4. Subject Toppers Awards are conferred to the students who get the highest marks in the school in the respective subjects.
5. Sports Scholarship is given to the students who get medals in CBSE National Games, School Games Federation of India, PYKA Games etc. Students are awarded with cash scholarship of ₹1500, ₹1200 and ₹ 1000 for Gold, Silver and Bronze Medals respectively for winning medals in CBSE Zonal and Cluster.
